About me

Senior software developer with 12 year of solid experience in IT. My main passion for now is machine learning and data science. Also I have a lot of experience in PHP and Python development. Looking for product manager, team leader, data-scientist position. I am familiar with machine learning algorithms and python libraries such as Pandas, Numpy, Scikit-learn, XGBoost, etc. Also I have a lot of experience with PHP frameworks such as Symfony and Laravel. I have build several highload and big data projects.
